

# GENESIS®

## 950 CONCENTRATE

For use on pressroom floors, walls, machinery and equipment as a general cleaner and degreaser.

Genesis® 950 Concentrate is not a solvent, but alters hydrocarbons of printing ink, grease, tar, vegetable oils, grime/soot and other materials into a soluble mass. Because Genesis® 950 Concentrate is a trigger chemical, water must be used as the final cleaning agent.

For heavy cleaning/degreasing of engines, transmissions and wheels: use full strength and allow to soak for 30 seconds to 1 minute, scrub surface and flush off with water. For tools, concrete and heavy stains on upholstery or carpet: leave on surface for 30 seconds to 1 minute, brush surface and water rinse. (Note! test small area of carpet first to insure product does not lighten color.) For floors, painted woodwork, automotive-painted-chrome-stainless-plastic surfaces, bug and road oil removal: use a mix ratio of 7 parts water to 1 part Genesis® 950 Concentrate. For shop rags: use 1/2 cup of Genesis® 950 Concentrate in washing machine, allow rags to soak for 5-10 minutes before placing machine in automatic wash cycle. Do not use Genesis® 950 Concentrate in direct contact with food, medical or for garment cleaning use.

**VOC METHOD 24: 1.3 lbs. per US gallon in concentrate**

**Genesis® 950 Concentrate does not contain any reportable level of SARA Title 313 or HAPS Chemicals.**

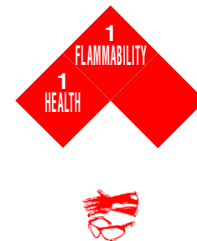

FEATURE	BENEFIT
 Very effective cleaner and degreaser	 <i>Can be used to clean up oil, grease, printing ink, dirt and other difficult to clean materials</i>
 Genesis® 950 Concentrate is safe to use on painted metals, plastics, concrete, carpet and other materials	 <i>One product replaces several</i>
 Low VOC	 <i>Reduction in reporting</i>
 No regulated toxins	 <i>Improved employee and community safety</i>
